

Anmol Jain

B.Tech. - CSE - Artificial Intelligence

I am a BTech student specializing in Artificial Intelligence, driven by a passion for technology and a curiosity to explore diverse domains such as Software Development, Machine Learning, and Web Development. Dedicated to applying technical expertise to innovative projects and gaining valuable hands-on experience in a dynamic professional setting.

EDUCATION

Year	Degree	Institute	CGPA
2025	B.Tech	TMU, Moradabad	8.3
2021	12th ICSE	The Woods Heritage School, Jhansi	90%

PROJECTS

1. Study Notion – An Edtech Platform

TECHNICAL SKILLS: JavaScript, React, Express.js, Node.js, Tailwind CSS.

Developed dynamic, responsive user interfaces using React, ensuring an intuitive and engaging experience across all devices. Designed and implemented RESTful APIs with Express.js and Node.js, enabling efficient data management and seamless interaction between frontend and backend systems.

2. Attendance System - Using Face Recognition

TECHNICAL SKILLS:

Programming Language: Python.

Libraries & Frameworks: OpenCV, face_recognition, Pandas, Tkinter.

Tools & Techniques: Haarcascade Frontal Face Detection, Computer Vision, GUI Development

Developed a real-time face detection and recognition system utilizing OpenCV and the face recognition library for accurate identification. Created an intuitive GUI with Tkinter to efficiently handle attendance records, including creation, management.

CERTIFICATION

- ◆ GIT TRAINING CERTIFICATION – IIT BOMBAY
- ◆ PYTHON PROGRAMMING CERTIFICATION – IIT BOMBAY
- ◆ R PROGRAMMING CERTIFICATION – IIT BOMBAY

IT SKILLS

- **Languages:** C++ Python(Basic).
- **Databases:** SQL, MongoDB.
- **Development Platforms:** Leetcode, GeeksforGeeks, DSA, CodingNinjas.
- **Technologies:** HTML, CSS, JavaScript , React , Nodejs , Tailwind CSS, Machine Learning, Generative AI, GitHub.

INTERNSHIP

- ◆ Yp Silon IT Solutions Pvt. Ltd. | IT / Computers – Software

TECHNICAL SKILLS: HTML, CSS, JavaScript, React, Express.js, Node.js, Tailwind CSS, MongoDB.

Technical Intern - Full Stack Development (July 2024 – Oct 2024)

During my internship as a Full Stack Technical Intern, I contributed to the development and enhancement of web applications by:

Developing and optimizing front-end interfaces using React.js, ensuring a seamless and interactive user experience.

-Building robust back-end services with Node.js and Express, including database management with MongoDB.

-Conducting testing and debugging sessions to identify and resolve application issues, this role deepened my understanding of full stack development, allowing me to apply and refine my skills in a dynamic, real-world setting.
